
RebelsNick by wailord2

Custom plugin for changing names of players

Written on Minecraft version 1.14.3

Possible Commands

Players:

`/nick <newname>`

change their nickname into something else

`/nick clear`

reset their nickname

`/nickcolor <color>`

change the color of their name

`/nc`

open gui to change color of their name

Staff:

`/nick <newname> <playername> <"-s" (OPTIONAL - to silently change their name)>`

change the nickname of someone else, optionally silently so they dont get notified

`/nick clear <playername> <"-s" (OPTIONAL - to silently clear their nickname)>`

reset the nickname of someone else, optionally silently so they dont get notified

`/nickcolor <color> <playername>`

change the color of another player

Color possibilities

write the color for the `/nickcolor <color>` in the same format as its written in the Permission List.

I.e. `/nickcolor dark_green wailord2`
